Notice

03.05.2020

Dear Parents and Students,

Greetings from Don Bosco School, Liluah.

We at Don Bosco School, Liluah continue to pray for our students, parents and teachers. May God bless and protect each one of us.

I thank all our teachers for conducting online classes for our students. Now all our teachers are equipped and trained for managing the classes. I have prepared a routine for the online classes that all subjects could be handled properly. From 04th May 2020 onwards teachers will be following this new routine. I have deputed the subject teachers to keep contact with students and use any means that the teachers are comfortable with. Students are asked to co-operate with all teachers. Students are also asked to maintain an exercise book each for every subject. The work done by the students will be assessed and marks will be given. Students are also reminded not to disturb the teachers while the classes are going on. Let me also request all of you be patient and give little time for the teachers to get all contacts and start the classes. There are few new teachers who may take little more time to get acquainted with our students.

To further facilitate the academic online platform for students, a constructive platform has been created only for the academic purpose. Notes, projects, assignments, videos, ppts will be made available class wise and subject wise for easy access to students. The process for login is as follows:

- On Monday, 04 May 2020, the link to access the materials will be visible on the school website.
- The link to be followed is lms.donboscoliluah.org/User/Candidatelogin.aspx.
- Once you visit the link enter your admission number (registration no.) A SMS with a One Time Password will be sent to the registered parent’s mobile number.
- Once you validate the OTP then system will ask you to set your password.
- After login, the user ID will be the student’s registration number and the password will be the same which you set in for the above step and should be used for your personal login.
- In case of any problems with regards to login, send an email to support@xgenmedia.com

God bless you,

Thank you,

Fr. K.V. Mathew
Principal
